### PRODUCT DESCRIPTION

Widmer RS PTV Print Only Automatic Transcript Validator The Widmer RS PTV transcript validator prints the school seal, signs and dates transcripts documents in one pass through the high speed imprinter at a rate of 180 documents per minute; it does not emboss. The RS TV comes equipped with an automatic feed to load the transcripts into the machine for imprinting. The college s seal is printed onto the paper. The registrar s signature, title, institutional name, and date are imprinted in indelible ink. This is one of the only machines designed to replace manual stamping and signing of each school transcript. Dual security locks provide secure protection. Dual counters track the number of transcripts being processed. The customer is required to send artwork or legible copy of the seal signature, signed three times in blue or black ink on white paper official title of the person signing a sample of the document s that will be stamped. This information will be used to tailor the validator to the customers needs. Widmer machine cases are made from die cast metal for years of heavy duty use. You can count on Widmer to out perform and outlast the competition. Features Automatic Feed Signatures are imprinted in indelible ink and date validated Includes a Batch and non resettable counter Ability to process small forms, legal, and European size papers Includes nine programmable presets to reduce operator input and setup time Rugged construction including steel hardened shafts, self lubricating bearings, and high torque stepping motors
