PRODUCT DESCRIPTION

The Widmer ND 3 is a six digit number date machine that quickly numbers and dates invoices, purchase orders and documents of all types. The ND 3 number and date machine eliminates the need for pre numbered forms. The number, month, date and year start values are set manually and automatically advance with each stamping operation. Paper insertion activates the trigger for split second stamping. A new throat design allows greater accessibility documents of letter size and larger documents may be inserted with ease to stamp along the document top or side. The optional extension trigger option can be installed to allow change imprint locations. The stamping pressure can be increased to penetrate carbonized forms and pressure sensitive carbonless forms. Prints 1/8 from edge of document on the left top margin but can be factory set up to 1.75 inches from edge. Also available in Date Number configuration.
