PRODUCT DESCRIPTION

Staplex SU 100 ULTRA Heavy Capacity Electric Stapler Staplex Model SU 100 Ultra Heavy Capacity Electric Stapler makes heavy duty table top binding affordable to everyone 500 faster than any other way to staple or bind Saves time, money and effort Solid state electronics, direct drive solenoid, durable cast aluminum housing and all steel staple mechanism are designed for rugged use day after day, year after year Model SU 100 eliminates fatigued hands caused by conventional manual staplers Great for all heavy capacity stapling in office, printshop and reprographics areas, packaging and shipping department. Staple paper, corrugated, plastic, cardboard, cloth or virtually anything Use Model SU 100 for reports, documents, computer and laser printouts, bookies form pads, coupon and checkbooks, legal, tax and accounting documents and much, much more Wide opening, dual adjustable backstops and electronic footswitch assure fast, accurate, neat staple positioning. Put a Staplex SU 100 to work for you today Satisfaction guaranteed Staplex Model SU 100 Ultra is generally recommended for stapling 20 sheets of 20 lb. paper. Model SU 100 requires that the proper size staple be used for each stapling job based on the number of sheets of paper being stapled as noted below. In other words, you cannot use the HO 5 8 5 8 staple to staple 25 sheets as of 20 lb. paper because the staple leg length would be too long for that job. Right lag of staple should not be a minimum of 1.25 inches 3.2 cm from right edge of material to activate safety microswitch attached to the adjustable locking backstop on the right side of the stapling head. Optional additional left side contact safety microswitch available on special order to allow positioning right leg of the staple closer than 1.25 inches from the right edge of the material. Staple up to

PRODUCT SPECIFICATION

Voltage	AC120V/240V, 50/60 Hz volts
Staple Magazine Capacity	300 quantity
Throat Depth	4 in.
Max. Sheet Capacity	100 sheets
