PRODUCT DESCRIPTION

The ABE 800 1 manually operated security perforator marks up to 12 documents at a time with a 6 character date only. The 800 1 is similar to the 700 1 except for its manual operation; it requires the pull of a handle to perforate the document set. The removable die block makes replacing dies a snap. Its heavy duty alloy died casting ensures a long lasting life. Up to 6 characters can be imprinted per line and up to 3 lines can be imprinted per document. Click on the supplies icon to view the most popular perforator plates.
