PRODUCT DESCRIPTION

The Widmer E 3 electric embosser is perfect for single sheet and two part carbonized forms, as well as certificates, diplomas, and legal papers. This unit features a trigger mechanism that can be set to stamp at the same depth consistently and accurately with guide shelves that allow for exact document positioning every time. Stamping pressure can be electronically adjusted so that dies do not cut through the document. Embossing Seals are custom engraved for standard license ring text and intricate center ring artwork. Seal imprint starts 1 8 inch from the edge of the document. Optional foot pedal, security lock, guide shelf, visual counter and extension trigger also available. Also available for 220 voltage.
