PRODUCT DESCRIPTION

Acroprint ET Document Control Stamp Machine
ET Document Control Stamps are durable time and date stamps that are used by businesses worldwide and are suitable for any business environment. Time stamps are designed for repetitive document stamping. They are heavy duty and built to last for a long time. The ET stamps can be used for all document control applications from front office, purchase orders, mail to shipping and receiving forms. ET at a Glance Dependable A reliable, quality designed motor provides the highest accuracy. Tough The ET stamps heavy duty construction withstands harsh environments and hundreds of print registrations per day. Adjustable Easy print control adjustment allows for multi copy printing. Precise Electronically controlled printing assures clean instant registration. Precision typewheels deliver a sharp, clean imprint to penetrate multiple copies. Versatile With available custom engraved imprint plates and custom typewheel configurations, these stamps are suitable for virtually any time, date or number stamping application. Easy to Use Inserting a document into one of these heavy duty time stamps activates the sturdy automatic print mechanism, allowing convenient one handed operation. Precision typewheels deliver a sharp clean imprint and can penetrate multiple copies. These stamps provide an efficient, cost effective way to register year, month, date and time on important documents such as incoming mail, The ET and ETC models are identical, except that the ETC also includes a bright, easy to read digital time display. Built to Last Our rugged and dependable document control stamps can handle hundreds of print registrations per day. All units are rust and corrosion resistant and are made in the USA. Custom Imprint Plates Be sure to ask your dealer about upgrading with custom engraved plates, which allow for custom
