### PRODUCT DESCRIPTION

Dahle NOVUS B5FC Executive Flat Clinch Stapler BLUE Staplers are not all created equal. There are definitely some manual staplers that are better than the others and one company that makes the best staplers available is Dahle Novus. They have a first rate lineup of professional grade manual staplers including the B5FC, a flat clinch model. The Dahle NOVUS B5FC Executive Flat Clinch Manual Stapler is ideal for anyone needing a good stapler and it has a lot of great attributes, including an impressive stapling capacity. Here s a closer look at the Dahle NOVUS B5FC Executive Flat Clinch Stapler s strengths so you can see just what it has to offer you. As mentioned above, this product can fasten a lot of sheets of paper. It has a phenomenal stapling capacity of 50 sheets, which is quite high for a desktop device. The B5FC is a flat clinch unit. This means it completely flattens the legs of the staple. Documents fastened with flat clinch devices take up 30 less room and they lay totally flat, as opposed to papers that were processed with a standard stapler. In addition to flat clinch fastening, the B5FC can open up so you can tack your items to a bulletin board or wall. It can also temporarily pin your documents together so you can remove the staple easily and not have to deal with paper clips and such. It s also easy to switch between stapling modes. All you need to do is turn the anvil that s located on the base of the device. The B5FC was designed for high performance and you can get the best results by using Dahle Novus staples with it. The 24 6 and 24 8 Super fasteners are the ones you should look for. Loading this front loading stapler is easy. Just press the red button on the back of the unit and you can pop the staples in. Since this is a Dahle Novus product, it is very durable and well constructed, so it will last a long time. It also looks great and is available in three colors

gray, blue, and black. Finally, the B5FC has a super long 10 year warranty. Chances are you won't need to use it, but it's nice to have anyway. Overall, the Dahle Novus B5FC flat clinch stapler is the perfect choice if you need a high quality device for your desk. It has a terrific stapling capacity for a desktop unit and it's very well made. When you buy this product you won't need to think about buying another stapler for years. Dahle Novus Pro Staplers can be found in the offices of professionals throughout the world. Developed in Germany, these high performance staplers are designed to improve productivity and efficiency at work. Whether you need to staple a few sheets of paper or a stack of 60 pages, Dahle Novus Pro Staplers will help you get the job done faster and with less effort. The Dahle Novus Pro B5FC is a high performance executive stapler with steel driven mechanism. It features a dual staple guide system that provides superior performance and ensures each leg of the staple has even pressure until it clinches your documents. Its versatile Tri Mode stapling capability produces either a permanent flat clinch which bends and presses the staple legs flat to provide 30 more binder storage, a temporary pin, or tack. The temporary pinning mode allows you to easily remove the staple from the back of the document without any other device. This eliminates the need for paper clips or other temporary fasteners. The tacking mode is convenient for attaching documents to a wall or corked surface such as a bulletin board. Each mode is easily attained by rotating the circular anvil at the base of the stapler. No more jammed fingers that often occur from spring activated, top loaders. The Dahle Novus Pro B5FC is a front loading machine that is easily refilled by pushing the red button at the back of the stapler. For optimal performance, we recommend using Dahle Novus 24/6 Super and 24/8 Super staples. These thicker gauge, precision formed staples will ensure your Pro stapler performs as designed.
